DOUGLASS' MuMATH PKG

MUEDIT/BAS   is the editor. Will compile under
      BASCOM or ACCEL2 . (BASCOM's subsequent
file handling is erratic unless run under TRSDOS)

UNPARSE/MU   is a MuMath utility that takes the
internal format of MuMath functions and writes
them to screen or to disk.

/NS files are doc and an article on MuMath, in NEWSCRIPT
      word-processor format.

FRUIT/MU is a MuMath artificial intelligence program.
